

Tiger Canyon i7 - Tall Chassis

A leap forward in Business Performance

Boundary-breaking performance is available with the latest 11th Gen Intel® Core™ i7 processors with Iris® Xe graphics and support for high-speed 3200 MHz DDR4 memory. Whether you're creating a digital kiosk, deploying intelligent vending, or refreshing enterprise PCs, Tiger Canyon can get the job done easily. Select Tiger Canyon SKUs also feature Intel vPro® technology for remote manageability, hardware-enhanced security features, and platform stability to help businesses cut IT costs and boost uptime.

More Performance. More Connections

Every Intel NUC 11 Pro system can support one 8K or four 4K displays for digital signage, video conferencing, and other deployments. Operate Tiger Canyon in a cluster of small form factor PCs or create network redundancy using the optional Dual 2.5Gb Ethernet.

Businesses can get more work done anytime, anyplace, with the latest wired and wireless options, including Intel® Wi-Fi 6 AX201, the fastest generation of Wi-Fi, and two ultra-fast Thunderbolt™ ports.

Business class remote manageability.

Tiger Canyon, built on Intel 11th Gen architecture, provides greater system performance over previous generations with advanced hyperthreading technologies driving faster speeds and enhanced graphics. Qualified for 24x7 operation and backed by a three-year warranty, Intel NUC 11 Pro Mini PCs are small, powerful systems designed to meet today's needs—and keep businesses running for years. With Intel® vPro™ technology you can help your customers get ahead of security threats. The built-in hardware-enhanced security means you can keep client data and credentials secure, and remote manageability is perfect for installations such as unattended digital kiosks and intelligent vending.

Technical Specifications

Processor

- Intel® Core™ i7-1185G7 vPro Processor (3.0GHz@28W, up to 4.8GHz Turbo, 4 Cores, 8 Threads, 12MB L3 Cache)
- Or 11th Gen Intel® Core™ i7 1165G7 Processor (2.8Ghz@28W, up to 4.7Ghz Turbo, 4 Cores, 8 Threads, 12MB Cache)

Storage Capabilities

- One M.2 Socket Supporting 22x80 M.2 SSDs, PCIe Gen 4
- One M.2 Socket for Connection to 2.5" SATA SSD

Audio

- Up to 7.1 Multichannel (or Dual 8-channel) Digital Audio via HDMI

Hardware Management Features

- Trusted Platform Module (TPM) 2.0
- AMT Supported Ethernet Controller
- Voltage and Temperature Sensing
- ACPI-compliant Power Management Control
- Processor Fan Speed Control
- Fan Sensor Inputs Used to Monitor Fan Activity

Graphics

- Intel® Iris™ Xe Graphics
- Two HDMI 2.0b Ports with HDCP 2.2
- Built-in CEC for Both Ports
- Support for a 3rd and 4th Monitor via Thunderbolt 4 with DisplayPort
